

PERSONAL PROFILE

JORDY SABIMANA

With my passion for creating exceptional user experiences and my proficiency in a wide range of frontend technologies, I believe I would be a valuable addition to your team. My professional experience as a frontend developer, combined with my educational background in CS, has equipped me with the skills and knowledge necessary to excel in this role. Over the past 2 years, I have been responsible for designing, developing and maintaining user-friendly, responsive, and visually appealing websites and web application for a variety of clients.

EMPLOYMENT HISTORY

CONSULTANT, IOS DEVELOPER – MARCH 2019- AUG 2019

As a junior developer, I worked on a flexible Electronic Flight Bag system. I worked on different customization and adjustments for our customers. App maintenance was done using git.

Responsibility areas:

- Customization of the EFB for our customers
- Time-estimation of tasks
- Maintenance of the system

JAVASCRIPT DEVELOPER, ELEMENT – DEC 2019- AUG 2021

I worked as a javascript front-end developer. I worked in A agile and energetic environment. My stack was HTML, CSS, jQuery, Javascript.

Responsibility areas:

- Used html, css, js to add new features like anchor navigations, live chats. I created SPA using reactJS by converting Figma designs to web apps.
- Constantly improving codebase to ensure high maintainability and extensibility, optimizing of existing functions the frontend.
- Time-estimation of tasks
- Maintenance of sites

FULLSTACK DEVELOPER: LAURITZ.COM – NOV 2021 - APR 2023

LAURITZ.COM is an online auction house with presence on the web and mobile app.

Responsibility areas:

- Translating Figma or Adobe prototypes to landing pages or working components and implementation of new features- Using HTML, JS, React & Typescript, Redux and Hooks to manage application state. Also using Redux Thunk and sagas to handle async request.
- Constantly improving the existing codebase to ensure high maintainability and extensibility.
- Working with backend developers to understand and properly use the systems APIs, for instance using Rest and GraphQL.
- Identifying and solving application problems or bugs

FULLSTACK DEVELOPER: BOOKANYBOAT.COM – JUL 2023 - NOW

Bookanyboat is a B2B booking system to seamlessly manage bookings for stakeholders.

Tjenestenen sparret dem tid og penge. Udover det kunne mine kompetencer også bruges på flere områder i deres it-landskab.

Mine ansvarsområder:

- Worked the MVC design pattern and integrated the Mysql DB.
- I implemented other services such authentication using ruby on rails.
- Time-estimation of tasks
- Code maintenance
- Deployment of the application to heroku

PRIVATE & SPARETIME

I'm a 27 year old bachelor. I live in Copenhagen, Denmark. In my sparetime I like to workout, do some readings, spend time with my family and friends. I enjoy watching and playing basketball and football. On Sundays I'm mostly in my local church, where I sing and play keyboard in a gospel band.
